Minutes:

1. Welcomed attendees both live and on the internet.
2. Members briefly discussed the two subcommittee's goals and objectives and it was suggested that a combined set be developed. It was asked that all subcommittee members be thinking about what they would like to see stated.
3. Reliability members were familiarized with the details for the ART Matrix about the progress to date. A set of tabs/sheets will be developed for each column and each tab/sheet will contain notes, illustrations, photos and training information. A new sheet was posted. Andy will send the latest version via Email within the next few days.
4. Guideline members were briefly introduced to the top drive survey interface. It is expected to be live in the next two weeks.
5. Clarifications for training details that will be required were discussed.
