**IADC Future Technology Subcommittee Meeting**  
**IADC Advanced Rig Technology Committee**  
**2:30 pm, Thursday, 25 February 2010**  
**IADC – Houston, TX**

## **Attendance:**

Brad Rosenhagen, AWC Incorporated  
Raymond Taylor, DrillingRigMasters, LLC  
Richard Haut, Houston Advanced Research Center  
Keith Womer, KW Technology Services Inc.  
Frank Springett, National Oilwell Varco  
Karl Faller, TI Data  
Rolf Gullaksen, TTS Sense  
Egill Abrahamsen, Weatherford International

## **Minutes:**

Showed the IADC FT Presentation done at the ATCE.

Continued the discussion on the ART conference topic of implementation techniques for technologies. (i.e. JIP, Internal Investment, Sell the Prototype, Venture Capital, etc.)

The Issues workshop was discussed further. The workshop would be an excellent opportunity to combine a survey with the topic of the workshop. Many topics were discussed from the committee issues matrix and it was decided to pick the first issue that we can try to address. The decided issue was "STICK / SLIP". The next step in organizing the event is:

- Determine what we want to learn
- Scope of work / presentations desired
- Feedback from the event (survey and its structure)

Possibility of invitation to vendors with related technology Stick/Slip interfaces to present to committee IE: Bentec was discussed.

The next meeting will be March 25<sup>th</sup>.
