IADC Future Technology Subcommittee Meeting
IADC Advanced Rig Technology Committee
8:30 am, Thursday, 5 November 2009
IADC – Houston, TX

Attendance:

Bill O'Grady, Athens Group
Keith Womer, KW Technology Services
Thomas Geehan, MI Swaco
Frank Springett, National Oilwell Varco
Andy Shelton, National Oilwell Varco
Jennifer Kent, National Oilwell Varco
Dustin Torkay, Seawell Americas

Minutes:

1. Committee reviewed the SPE/IADC Drilling Conference Paper and assigned final refinements to the committee members as follows:
 - MPD Section – Keith Womer will further refine the MPD section to tailor it to the learning from the past matrix the committee worked on.
 - IADC/SPE DSATA Matrix – Frank to format the matrix in a presentable form.
 - Survey – Andy to include a little more write up on this section to explain how to read the graphs and prepare a sample graph that explains how to interpret the results.
 - Learning from the past – Dustin is to put together a paragraph summarizing the common results. Dustin also put together some Porter's Five Forces type graphs that illustrated some of the common threads of the three examples. He is going to refine them to a presentable form.

The goal is to have all sections done by Wednesday and get them to Jennifer, so that she can finalize the document before Monday. Great work everyone!!!
