IADC ART Reliability & Guidelines Subcommittee Meeting
IADC Advanced Rig Technology Committee
8:30 am, Thursday, 8 April 2010
IADC – Houston, TX

Attendance:

Brian Ellis, Canrig Drilling Technology Ltd.
Mike Killalea, IADC
Veronica Bohorquez, National Oilwell Varco
Robert Urbanowski, Precision Drilling Oilfield Services

Minutes:

1. Robert Urbanowski welcomed the group.
2. Robert Urbanowski reviewed the IADC's **Antitrust Guidelines** – which all attendees were familiar with.
3. The status of the IADC Top Drive Reliability survey was discussed. There have been thirty-five (35) downtime events put into the system. Ten (10) of these events fully filled out the form, where others lacked basic drop down menu information – such as length of downtime event or type of failure.

Action Item: Mike Killalea to contact participants who did not fully fill out forms on more than one event and let them know this is occurring.

Action Item: Mike Killalea to contact participants who have not submitted any unplanned downtime events to let them know we have not received any data.

4. The name of the top drive survey implying a short term study was discussed. It was decided to change the name to “**Top Drive Reliability Statistics Program**”.
5. A focused effort to get more participation in the Top Drive Reliability Statistics Program was discussed. Tasks were given to contact top drive rental fleet owners and Operators was discussed.
6. The status of the IADC **Technology Value Guide** was discussed. Efforts are still on-going to add definitions, photos and training sources. The first draft has been added to the IADC website. Mike Killalea discussed the problems with the document being in one large Adobe Acrobat (pdf) format file. It was also suggested to put the matrix on two (2) pages to make it easier to read.

Action Item: Mike Killalea to have someone in IADC convert the IADC **Technology Value Guide** to HTML format.

Action Item: All to review the current draft and gather digital photos of equipment and training sources with website/phone number to be added.

INTERNATIONAL ASSOCIATION OF DRILLING CONTRACTORS

7. No new business was discussed.
8. It was decided the next meeting would be 12-May-2010 at 08:30 CST at the IADC office.
9. The meeting was adjourned.
