

NOTICE OF PROPOSED CHANGE TO WELLCAP PROGRAM

A proposal to change the methodology for combining WellCAP courses has been reviewed by the Curriculum Subcommittee of the Well Control Committee and approved for circulation to IADC members for comment.

The proposal is as follows.

“Within the Drilling series, the Drilling course curriculum should be either a standalone course or a combination course with Workover/Completion only. Combining Drilling with any other course that does not have similar operational approaches to well control should not be permitted.”

Your comments on the proposal are requested. Please return your comments no later than 5 November 2010 to:

Brenda Kelly
Director, Accreditation & Certification
