

# TotalFina to sponsor IADC World Drilling 2000, 5-6 June, Paris

**TOTALFINA WILL SPONSOR** IADC World Drilling 2000, 5-6 June in Paris. This topnotch event features keynote addresses from leading North Sea and global E&P companies, thought-provoking and informative panels on international activities, HSE, technology, drilling performance, government affairs and deepwater.

Exhibit space is also available. Contact **Anne Otten** (anne.otten@iadc.org).

**Dr George Watkins**, Managing Director of **Conoco (UK)** is the keynote speaker on 5 June, and **Jean-Jacques Perchoux**, Deputy Director-Operations for the new TotalFina/Elf combination, will deliver the keynote on 6 June.

The first day kicks off with a welcome from IADC Chairman **John Irwin**, **Atwood Oceanics**, and IADC Regional Vice President-Europe **Gérard Godde**. First, registrants will enjoy an extensive review of activity in Africa and the Middle East. Moderated by **Claus Chur**, Managing Director of **Deutag**, the speakers and topics are:

- **William D Sullivan**, Vice President-International Operations, **Anadarko**: "Algerian Field Development";
- **Leite Da Costa**, Director of Exploration and Production, **Sonagol**: "Actual and Future Exploration and Development in Deepwater Angola";
- **Daniel Chaussurier**, Senior Reservoir Engineer, and **Benoît Ludot**, Drilling Engineer, **TotalFina and Compagnie des Pétroles Total Libya**: "The History of Libya's Mabruk Field: How to Develop a Challenging Field";
- **Dominique Barthe**, General Manager, **Total Iran**: "Development of the Sirri Field Offshore Iran";
- **Claude Géronimi**, Dorood Project Manager, **Elf Iran**: "The Dorood Field Development Onshore Iran and the First Onshore Buy-back Contract".

Following lunch, **Charlie Mearns**, Safety Coordinator, **Santa Fe (North Sea) Group of Companies**, will moderate a panel on the Cross Industry Safety Leadership Global Drilling Work Group. Confirmed panelists are:

- **Simon Richards**, Head of Deliver the Limit, **Shell UK Exploration & Production**;
- **Marty Webber**, QHSE Manager, **Transocean Sedco Forex**;
- **Glenn Lewis**, Operations Manager, **Halliburton Energy Services**.

Mr Mearns will also moderate 2 subsequent HSE presentations by:

- **David Bainbridge**, Acting Head, **UK Health and Safety Executive Offshore Safety Division**: "Piper Alpha: 10 Years After";
- **Schelte Rozendal**, HSE & QA Manager, **Deutag Europe**: "Review of Existing and Introduction of an Additional Method of Measuring HSE Performance".

The final session on the first day will examine improving drilling performance:

- **Laas Elzenga**, Drilling Engineer, and **Govert W Klop**, Superintendent-Drilling/Workover, **Deutag Europe**, and **Bill Anderson**, Senior Manager, **RLG International**: "TMP: The Solution to Performance Drilling";
- **Jim O'Hare and Osarumwense O A Aigbekaen Jr**, **KCA Drilling**: "A Systematic Method of PDC Drill Bit Selection".

The second day begins with presentations on "North Sea: Challenges and Expectations". Speakers are:

- **Chris Rhodes**, Technology Vice President, **BP Amoco**;
- **Steve Brady**, **Conoco (UK)**: "CRINE Phases I and II: Finder Wells and Double Value Development Wells".

Then, **Geir Sandvik**, Senior Advisor-Corporate Finance, **Pareto Fonds AS** will present an update on the industry's financial and market outlook.

Government and regulatory affairs are next. Moderated by **Ray Smith**, Managing Director, **Diamond Offshore Drilling (UK) Ltd** and Chairman of the IADC North Sea Chapter, the panel includes:

- **Brian T Petty**, IADC Senior Vice President-Government Affairs: "Closure Nears on EU Working Time Directive";

- **Geoff Dart**, Director for Oil and Gas, **UK Department of Trade and Industry**: "Update on the UK Licensing Regime";

- **Charles Miskin**, International Business Development Manager, **Transocean Sedco Forex**, IADC North Sea Chapter Vice Chairman-LOGIC: "The LOGIC Initiative";

- **W E "Dusty" Miller**, Technical Services Manager, **Diamond Offshore Drilling (UK) Ltd**, "Design & Construction Requirements (UKCS): Verifications Schemes and Risk Assessment";

Following lunch, Mr Godde will moderate 2 panels, the first on deepwater issues and challenges, the second on deepwater and rig technology. Speakers in the first session are:

- **Antoine Serceau**, Girassol Asset Manager, **ELF Exploration Angola**: "Status of the Girassol Field Development in 1,350-m Water Depth: New Challenges and Industrial Approaches";

- **Michele Deschamps**, Ultra Deep Offshore Project Manager, **ELF**: "Which Development Concepts for Ultra Deepwater Fields?";

- **Olivier De Bonnafos**, Offshore Engineering Manager, **Pride Foramer**, and **Jacques Guesnon**, Manager-Applied Mechanics, **French Institute of Petroleum**: "New Riser Systems for Drilling Below 3,000-m Water Depth".

The second session comprises:

- **Ian Cummins**, Marine and Structures Engineer, and **Eric Magne**, Marine and Structures Manager, **Transocean Sedco Forex**; **Eric Neme**, Deepwater Technology Manager, **Schlumberger Oilfield Services**; and **William Todd**, Advanced Senior Deepwater Development Engineer, **Marathon Oil Co**: "Deepwater Riser Management";

- **Dominique Michel**, CEO, **Doris Engineering**: "Latest Development for Deepwater Floating Facilities";

- **Jens Petter Røkenes**, Managing Director, **Engineering and Drilling Machinery AS**, "R&P Rig for Drilling, Workover, Well Intervention and Snubbing".
