

HSE Committees Meeting 21 July 2016

Location:

IADC
10370 Richmond Ave., Suite 760
Houston, TX 77042

MEETING MINUTES

8:30 – 9:00	<p>Welcome & Introductions Cody Ashley, Latshaw Drilling, Co-Chairman, HSE Committee Michael Stephens, Nomac Drilling, Co-Chairman, HSE Committee</p> <p>Facility Orientation & IADC Anti-Trust Guidelines Rhett Winter, IADC</p>
9:00 – 9:15	<p>SAFETY MOMENT Cody Ashley</p> <p>-Distracted driving. Examples include people playing Pokémon go (another example of mother almost hitting telephone pole) -Very experienced workforces can also cause issues...over experience expecting everyone else to do the right thing. -Focus on hot weather this time of year, have to acclimatize them back to heat. -Stress the importance of training (example of guy giving CPR while EMT and grandad watched) -Companies hiring average of 150-200 new people in the last few months, old experienced hands trying to jump back in full force. -Weather, a rig crew monitoring 3 thunder storms and lightning strikes the rig, throws a guy 6 feet away from the catwalk, EMT's run EKG and monitor the guy, ...actually the shockwave from the lightening is what threw the guy, need to reexamine safe distance for working near lightening. -Temperatures in work environments, an example is given of a welder in store room, heat related incident offshore, make sure to monitor temps in such rooms.</p>
9:15 – 9:30	<p>Chapter & Regional Updates Erin Ring, Noble Drilling</p> <p>Summary of IADC HSE Topics Q2 2016 North Sea Chapter - Has a Safety, Health, and Environmental Working Group that meets quarterly.</p> <ul style="list-style-type: none"> • BOSIET/ HUET Update – Cat 'A' EBS – Step Change Leadership Team held a meeting with OGUK who stated they are hopeful to having a resolution with the HSE regarding the medical issues around wet training. This could lead to 'shallow water' training with full in –water training following at a later date (similar to the Canadian training). • Step Change in Safety has published the 'Best Practice Guide to Manriding Safety' Update. • OGUK 50% Drilling Challenge 'Over the Side Work' - Volunteers for a small work group on this topic came forward: IADC NSC SHE Work Group being asked to examine eliminating the reliance on Standby vessels and Fast Rescue Crafts for 'over the side work' through introduction of other, more robust, controls.

	<ul style="list-style-type: none"> • Safety Cases –Guidance document in development related to the required information in Safety Cases after consultation with the HSE Executive. Language regarding Diving in safety cases has been drafted and successfully used in submitted Safety Case Revisions. There will be a final meeting with HSE to discuss this before a final version is posted on the IADC NSC webpage. • Cyber Security – HSE Executive plans to issue guidance on cyber security. • The Offshore Safety Directive Regulator (OSDR) website is being updated and an MOU with HSE and the OSDR Strategy and Articles for Governance and Management will be published to explain how the MOU is implemented in practice. • HSE has raised concerns about lifeboat familiarization and the expectation that personnel are familiar with the workings of the lifeboat including boarding. They are preparing a draft guidance paper and expected in the next few months. It is expected that photographs and demo-seats may not be considered sufficient. • DROPS work group was formed to discuss priorities and actions that can be taken but not duplicate DROPS. Initial priorities are a guidance note for training elements, information on management systems to be gathered, and reporting of incidents to be considered further including a common format. • 2016 Awards for Best Safety Performance and Best Safety Performance for individual rigs were given. • Newly published document referenced can be found under the useful links on the NSC website. <p>http://www.iadc.org/north-sea-chapter/useful-links/</p> <p>South Central Asia Chapter – New HSE Committee</p> <ul style="list-style-type: none"> • No meeting Q2 <p>Southern Arabian Peninsula</p> <ul style="list-style-type: none"> • Presentation on “MAC Offshore Garbage Converter System” (presentation on website) • Presentation on “e-Learning in Oil & Gas” (presentation on website) <p>No information was received/available from South East Asia (minutes in development), Permian Basin, Ark-La-Tex, Australasia Chapter, Brazil, Mississippi, South Louisiana, Rocky Mountain, Oklahoma-Texas Panhandle, Nigeria and North Arabian Gulf Chapters.</p> <p>A member also discussed the dept. of energy in UK will undergo major change soon,...BOSIET and TBOSIET training reevaluating training providers to make sure they are competent. More info on OPITO webpage. S Central Asia looking for participation. S. Arabian peninsula chapter upcoming events. No additional info on grounding of various aircraft in Europe, N. sea chapter lead in process of trying to get more information</p>
<p>9:30 – 9:45</p>	<p>Environmental Subcommittee Update Christine Lederer, Rowan Companies</p> <p>Looking for more participation in this SC or topics -regulatory scrutiny or regulatory issues -EPA ballast water...court cases on methane determination in N. Dakota, -Discussion came to consensus that more onshore participation is needed to recognize differences in onshore/offshore issues.</p>
<p>9:45 – 10:00</p>	<p>Safety Alert Program Discussion: Revisions & Updates Cody Ashley</p> <p>Directed the following topics and questions to the committee:</p>

	<p>Asked committee how many have alert program? Alert system can be used to share information, needs to be proactive. What are lessons learned and expectations going forward...does it need to be called lessons learned or safety alerts? Consider international and offshore arena?</p> <p>Volunteers – Keith Stratton, Cody Ashley, Jody Calcote, Thad Dunham, Cliff Roberts, Steven Farnham, Andrea Wilcox, Mike Stephens.</p> <p>Report progress in next HSE committee meeting.</p>
<p>10:00 – 10:15</p>	<p>Break</p>
<p>10:15 – 11:10</p>	<p>Presentations:</p> <ul style="list-style-type: none"> - Jim Shelton, OSHA <p>Discussed the following OSHA topics: The e-reporting rule has been delayed, and small vs large establishments (250+) large has to submit 300 A annual summary logs. There was an article written saying oil and gas excluded from high hazard industry, not exactly true. If in doubt on rules, always refer to registration. The importance of getting reports in early was stressed. Jim did master's thesis on safety bonuses, give example of trying to hide reporting for financial bonuses...look at incentive programs. Post Incident drug testing – much debate on if drug use contributed to incidents...bonuses and drug testing having potential for retaliatory issues. More info to come, delayed to 1 November. In a way, this is potentially turning 20 years of drug policy on its head.</p> <p>A member gave example of cousin walking around stoned at family reunion, because he doesn't have to drug test unless there's an incident</p> <ul style="list-style-type: none"> -OSHA penalties going up for inflation- starting August 2nd -Fatalities same rate as last year -stressed heat issues, most were fortune 500 companies -PSM new memo 1%?...stress high hand incident rates <ul style="list-style-type: none"> - Baron Lukas, Colonel – U.S. Marine Corps (Ret) & CEO of EnviroLogic Solutions (contact for presentation information: baron@envirologicsolutions.com) - Ian Efron, Zohair Memon, Nicholas Araujo, Ronnie Featherston from University of Houston "Well Control Risk & Barriers a Tripod Beta Endeavor" (contact for presentation information: iefron@icdrilling.com)
<p>11:10 – 11:30</p>	<p>Journey Management - CANCELED</p>
<p>11:30 – 11:45</p>	<p>IADC Accreditation & Committee Updates</p> <ul style="list-style-type: none"> - John Pertgen – IADC (Offshore Regulatory Update) <p>DHS issued final guidance document USCG issued NVIC and Marine Casualty reporting Ballast water management USCG has industry day on 1 nov 2016 at sector Houston/Galveston offices Pending Rules Final revision to crane reg standards for MODUs NPRM for USCG SMS</p>

	<p>NPRM training and personnel BOEM air rule pending BSEE well control rule effect 7/28 What's the big picture for Offshore pedestal cranes regulatory bodies looking at adopting API 2C.? IADC advocacy webpage, Discussion on finger board latching work group...NOV came in and gave long explanation. Discussed issue in great detail. Want other manufacturers involved to discuss better solutions to the issues. John discussed email distribution list, American regional, offshore regulatory Discussed offshore radar list</p> <p>Patty Tydings - IADC - (Crane & Rigger Update) Crane rigger is about to launch within a few weeks. Aligns with RP 2 D, but exceeds it. Rigging and crane (2) operation courses.</p> <p>Alma Roberts - IADC Operational Risk Mgmt. group is recruiting members...want to focus on human factors and barriers. WellCap plus</p> <p>- Mentioned roll playing in WellCap plus. And DIT program and overview. Anybody using the bar codes or they using cards for Rigpass? Gateway program overview. If the card can accommodate use that or if not use the QR. Question does the QR or barcode connect directly to the database.</p> <p>-</p>
11:45 – 11:55	<p>Incident Statistics Program (ISP) Update Leslie Packard, IADC</p> <p>Annual Report out within next or so. 0 fatalities in US land, 1st time since 1962. 80% of working rigs report. ISP task group process see website. Looking for TG members for 2017: Keith Stratton-Atlantica (volunteer) Question to consider adding near miss tracking factor for ISP group?</p>
11:55 – 12:10	<p>Closing remarks & break for lunch</p> <p>Next meeting scheduled for October 20, 2016 at IADC Potential speaking topics included: Coast Guard, API updates, Workforce Development</p>
12:10 – 12:40	LUNCH

Attendance:

Name		Company Name
Keith	Stratton	ATLANTICA MANAGEMENT (USA) INC
