Integrating ESG: Risk and Opportunities

There are many questions facing the energy industry, from pace of change, to shifts in technology, to regulatory and environmental policy, to the skills and workforce needed for the future. But as the energy sector wrestles with the transition to a lower carbon future, investors and shareholders are asking for increased transparency and clarity of strategy on how companies are addressing this transition. Therefore, integrating environmental, social and governance (ESG) risks and opportunities into business portfolios is a strategy to thrive in the new energy future while enhancing business continuity and taking control of the narrative.

Our guest speaker is Rita C. Reed of Round Rock Advisory. As a scientist and sustainability strategist, Rita understands what it takes for organizations to remain competitive while transforming the way they operate. With 18+ years of diverse and successful experience in the energy and IT sectors, Rita has helped companies shape their ESG plans while providing effective tools for monitoring climate and environmental trends. With a Bachelor’s of Science Degree from Louisiana State University, and an Executive Master’s Degree from Arizona State University in Sustainability Leadership, Rita has helped maximize business potential across the full spectrum of the industry from super majors, majors, and independents in the oil, gas and petrochemical marketplace and with a Fortune 250 utility company. https://www.roundrockadvisory.com/about.

Join us to learn more about ESG and the future of energy, discuss new trends, and share examples on how other companies are embedding sustainability into their strategies.

All meetings must have a written agenda that is circulated prior to the meeting. Attendees must strictly follow the agenda. Topics not on the agenda must be deferred until a later meeting.

Meeting minutes will be posted on the Committee’s website following endorsement by Committee leadership and meeting attendees. Attendees should be aware that: 1. There may be audio recordings of meetings, for purposes of facilitating capture of meeting minutes; and 2. The final published minutes will include a record of who attended the meeting. The audio recordings shall be destroyed immediately following endorsement of the minutes.

IADC Committee activities are governed by IADC’s Antitrust Policy and Guidelines. Click here for information on the policy and guidelines.
