About the IADC Drilling Middle East 2020 Conference & Exhibition
Although the Middle East market has remained resilient through the downturn, this region continues to face challenges around workforce development, drilling efficiency, safety and security, and equipment maintenance. The 2020 IADC DRILLING MIDDLE EAST CONFERENCE & EXHIBITION will bring together industry leaders and drilling professionals to discuss such challenges and share best practices. Cutting-edge technology advances, including drilling automation, will be featured, as will case studies of relevant technical achievements. The premier event also will highlight evolving approaches to safety and training, providing practical information on new tools and processes that can be used to improve HSE performance.
