IADC Transport and Logistics Forum

Hosted by the IADC

The International Association of Drilling Contractors are holding a **FREE** industry forum for transport and logistics companies on the **22nd November 2018, 11am – 1pm. Picnic Point Function Centre Toowoomba.**

This IADC forum is intended to address the recent introduction of the changes to Chain of Responsibility (CoR) in our industry. CoR changes which effect all of us came into effect on the 1st of October 2018 and have far reaching effects and implications for all.

The IADC want to ensure that all IADC members and their associated transport companies are fully conversant with the changes occurring through regulatory reforms and Natural Gas industry ongoing safety initiatives

The Oil and Gas industry has always been at the forefront of safety initiatives, it is vital we collectively maintain a consistent, compliant, safe position in how we conduct ourselves on the roads and onsite.

We will have with us representatives from Safer Together, IADC rig moving Committee the National Heavy Vehicle Regulator and other industry representatives who will discuss:

- **Oil and Gas Transport Safety**
- **New CoR laws**
- **Permits – oversize & over dimension**
- **Natural Gas Safer Together**

The forum will start at 11 am and conclude at approx. 1pm, with a light lunch and an opportunity to discuss the changes with industry speakers. Industry Representatives will include;

- **Peter Runge - Origin Energy**
- **David Pearce - Santos**
- **Travis Kearsley - Arrow**
- **Sean Tansley – NHVR**
- **QGC**

It important that you ensure that your nominated transport provider comes along to this forum to protect you and your company, under the new COR legislation we are all responsible and liable.

You will be able to hear from subject matter experts, regulators, and our industry on areas which matter to all of us.
