a few minutes of defusing the situation, the 16-year-old handed over the knife from his pocket.

We are seeing millions of Americans all over the nation demanding accountability and comprehensive reform to a system that has allowed police brutality and injustice against people of color for generations. Amidst the united uprising across the country, peaceful protesters voices are being drowned out by those seeking to dismantle the movement with unrest and violence. DeeJay’s mission is to not only inspire young people to get involved in change, but to emphasize using their voices and actions peacefully.

With these goals in mind, the scenario that occurred with the young man was a lesson for many involved. The defused scene created a learning opportunity to display how we can all work cohesively together, and most importantly, to work towards a better and more just future for all Americans.

I launched a Constituent of the Month program to recognize individuals who have gone above and beyond to make our region and our country a stronger place for everyone to live and thrive. As our nation and community works toward long overdue racial change and healing, voices like DeeJay’s must be lifted and heard. I am honored to recognize Mr. Johnstone as the Constituent of the Month, and I thank him for being a prominent role model in amplifying racial justice in our community during a critical time of change for America.

REMEMBERING AND HONORING EMMA MOREL ADLER

HON. EARL L. “BUDDY” CARTER
OF GEORGIA
IN THE HOUSE OF REPRESENTATIVES
Friday, August 21, 2020

Mr. CARTER of Georgia. Madam Speaker, I rise today to remember and honor Emma Morel Adler, who passed away on July 12 at the age of 90.

Emma was a native Savannahian and attended the Pape School, where she established a firm foundation in the Arts and Humanities, developing many life-long friendships. She later attended Bryn Mawr College in Pennsylvania, where she received a BA in French in 1952.

After returning back to Savannah, Emma was a reporter at the Savannah Morning News. She married her beloved husband, Lee, who was also a native Savannahian, in 1953 and they had two children.

Lee and Emma were married for more than 50 years before Lee passed away in 2012. Emma loved her family with all of her heart, and was a faithful mother and wife. She also loved her city of Savannah, and was devoted to advocating for it and its preservation. Emma was a volunteer for numerous boards, including The Junior League of Savannah, the Savannah-Chatham County Board of Public Education, the Georgia Humanities Council, the National Federation of Humanities Council, Historic Savannah Foundation, the Telfair Museum, and the Ossabaw Island Foundation.

She was also a member of the Georgia Historical Society and The National Trust for Historic Preservation. Emma was a natural born leader and served as President of the Friends of Massie Committee, Savannah’s oldest public school.

Her love for history, art, music, and her family made Savannah better. I am immensely grateful for all the work she did to preserve Savannah’s beautiful history. She will be deeply missed.

IN RECOGNITION OF THE INTERNATIONAL ASSOCIATION OF DRILLING CONTRACTORS

HON. HENRY CUELLAR
OF TEXAS
IN THE HOUSE OF REPRESENTATIVES
Friday, August 21, 2020

Mr. CUELLAR. Madam Speaker, I rise today to commend the International Association of Drilling Contractors on its 80th anniversary as a trade association.

In 1940, the International Association of Drilling Contractors, more commonly known as IADC, was formed to address the need for a collective voice advocating for the interests of the oil and natural gas contract drilling industry. Since then, IADC has been the world’s leader in developing drilling safety protocols and standards.

Over the past 80 years, IADC has been instrumental in shaping the upstream oil and gas industry. In 1947, IADC began sponsoring industry training for college students, and by 1962 had developed the Incident Statistics Program (ISP), an industry-leading safety incident reporting program that is still in operation today. In 1968, IADC led the publication of the Accident Prevention Manual and standardized the color-coding of oilfield servicing equipment. In 1983, IADC sponsored the first joint Society of Petroleum Engineers/IADC Drilling Technology Conference, which persists today as an annual event, and in 1994 introduced the RigPass program to help service companies assure their field personnel are properly grounded in drilling safety basics of rig operations and safety.

IADC also introduced the industry’s Competence Assurance Accreditation (CAA) program, circa 2004, which assures field personnel possess the necessary knowledge, skills and abilities required to function safely in the oilfield. These are just a few examples of the initiatives IADC has undertaken to make the oil field a safe and prosperous place to operate.

Today, IADC continues to exemplify the ideal model of leadership and remains committed to teaching the core values of safety, environmental stewardship, and continuous improvement of technology to generation after generation of America’s energy workforce.

Over the years, IADC has maintained 1,000 plus members worldwide, seventeen regional chapters, forty-six chapters, and has accredited the training of nearly 2 million personnel in the oil and gas industry, the vast majority of which have been hardworking Texans. Headquartered in Houston, IADC itself is part of Texas’ vibrant energy sector. With nearly 300 members companies in-state, IADC plays a critical role in the production of Texas’ 3.6 million barrels of oil per day.

Additionally, IADC’s compendium of industry-leading reference media and periodical resources informs more than 1.5 million industry stakeholders each year and the global distribution of these materials has been crucial to informing national authorities charged with developing vital compliance initiatives for oil and gas industry activities worldwide.

I would like to extend my gratitude to the International Association of Drilling Contractors for eighty years of unwavering competence, professionalism, and commitment in support of the transformational drilling industry that sustains the energy intensive demands of our modern society.

Mr. Speaker, again I recognize the 80th anniversary of the International Association of Drilling Contractors.

REMEMBERING AND HONORING BRUCE LAMBERT BROADRICK

HON. EARL L. “BUDDY” CARTER
OF GEORGIA
IN THE HOUSE OF REPRESENTATIVES
Friday, August 21, 2020

Mr. CARTER of Georgia. Madam Speaker, I rise today to remember and honor Bruce Lambert Broadrick, who passed away on July 15 at the age of 68. Besides his years at the beloved University of Georgia, Bruce spent his entire life serving Dalton, Georgia.

He was a pharmacist and State Representative whose passion was making lives better. Bruce owned his own pharmacy, Frank’s Pharmacy, for 35 years until the pharmacy’s closing in 2009.

He took his leadership skills to new heights when he served as President of Georgia Pharmacy Association from 1995 to 1997. He also served as Vice-chair of the Whitfield County Board of Health.

I had the honor of working alongside him for a few years when he served as a Georgia State Representative. Although pharmacy was his core focus, he loved his family more than anything. He was affectionately known as “Papa Bruce” to his 7 grandchildren, and was a dedicated father and husband, as well.

As a pharmacist myself, I can attest to Bruce’s heartfelt dedication to his work as a pharmacist. He truly cared about the profession, and served every patient with the best of his abilities. Bruce will be deeply missed. My thoughts and prayers go out to his friends, family, and patients during this most difficult time.

RECOGNIZING MELISSA DAVISON

HON. LOIS FRANKEL
OF FLORIDA
IN THE HOUSE OF REPRESENTATIVES
Friday, August 21, 2020

Ms. FRANKEL. Madam Speaker, I rise today to recognize Melissa Davison, a local hero from Florida’s 21st Congressional District who has gone above and beyond as a healthcare worker both before and during the COVID–19 pandemic.

Melissa began her nursing career nearly 35 years ago at Humana Hospital, which would later become JFK Medical Center. After temporarily leaving to get her master’s degree, Melissa came back to JFK in 2006 as their Infection Prevention Coordinator. Since being in this role, Melissa has overseen JFK’s entire infection control programming through H1N1, Ebola, and now COVID–19. From March through May, Melissa worked for five months straight, including nights and weekends, making sure hospital policies and procedures followed the most up-to-date regulations per
