WORKSHOP PROGRAM COMMITTEE

A special thanks to the following committee members for their support in organizing the workshop:  
- Alan Clarke, National Oilwell Varco  
- John Cohen, AGR Enhanced Drilling  
- Ahmet Duman, GE Oil & Gas  
- John Kozicz, Transocean  
- Kristin Falk, AGR Enhanced Drilling  
- Robin Macmillan, National Oilwell Varco  
- Guy Fasey, Weatherford  
- Gavin Humphreys, Stena Drilling Ltd.  
- Sara Shayegi, Shell International E&P  
- Frédéric Jacquemin, Pacific Drilling  
- Ken Smith, Chevron  
- Iain Sneddon, Transocean  
- Robert Ziegler, Petronas  
- Roger Stave, AGR Enhanced Drilling  
- Scott Maddox, IADC
Make plans to attend the **2014 SPE/IADC Managed Pressure Drilling and Underbalanced Operations Conference & Exhibition**. The conference will convene in Madrid, Spain on 8-9 April at the NH Eurobuilding Hotel.

Technologies designed to control annular pressure during drilling, inclusive of Underbalanced Drilling, Managed Pressure Drilling and Dual Gradient Drilling are being used in many forms around the world. UBD continues to maximize reservoir performance, while MPD techniques spanning onshore performance drilling and offshore deep and shallow water prospects serve to enhance drilling safety and minimize NPT. Once considered a futuristic technology, DGD is now a reality with numerous wells drilled, and many exciting prospects on the horizon.

New applications of these drilling practices take place every year, and their frequency continues to grow. This conference is a world recognized forum to help the energy industry better understand the technology and the effective, safe utilization of the various applications of UBD, MPD and DGD.
